Section 1. Letter of Invitation

New Delhi

Date: March, 2020

1. Introduction

Delhi Mumbai Industrial Corridor (DMIC) project is aimed at development of futuristic industrial cities in India which can compete with the best manufacturing and investment destinations in the world and converging next generation technologies across different sectors thereby creating employment opportunities and economic growth leading to overall socio-economic development.

An institutional framework with a dedicated Special Purpose Vehicle (SPV) viz. National Industrial Corridor Development Corporation Limited (NICDC) [erstwhile Delhi Mumbai Industrial Corridor Development Corporation Limited (DMICDC)] was set up for project development, coordination and implementation of the project. In view of the success and importance of DMIC project, Government of India has announced following other industrial corridors as well:

- Chennai-Bengaluru Industrial Corridor (CBIC) with extension to Kochi via Coimbatore;
- Amritsar – Kolkata Industrial Corridor (AKIC) (Eastern Dedicated Freight Corridor as backbone being developed by DFCCIL);
- Bengaluru – Mumbai Industrial Corridor (BMIC); and
- East Coast Economic Corridor (ECEC) with Vizag – Chennai Industrial Corridor (VCIC) as the initial phase of development.

Current Status:

As part of DMIC project, construction activities are underway at following locations:

1. Ahmedabad Dholera Special Investment Region in Gujarat (22.5 sq. kms);
2. Shendra Bidkin Industrial Area in Maharashtra (18.55 sq. kms);
3. Integrated Industrial Township Project at Greater Noida, Uttar Pradesh (747.5 acres);
4. Integrated Industrial Township Project ‘Vikram Udyogpuri’ near Ujjain in Madhya Pradesh (1100 acres)

The projects in other DMIC States i.e. Haryana and Rajasthan are at various stages of development and are being taken forwards towards implementation.

Project development activities for other industrial corridor projects i.e. AKIC and CBIC are underway and detailed master planning and preliminary engineering for following identified nodes are underway where land is being made available by the respective State Govt.(s):

1. Krishnapatnam Industrial Area as part of CBIC in Andhra Pradesh;
2. Tumakuru Industrial Area as part of CBIC in Karnataka;
3. Raghunathpur Industrial Area as part of AKIC in West Bengal.
Framework for Implementation:

For coordinated and unified development of all these and other industrial corridor projects to be developed in future, Govt. of India on 7th December, 2016 approved the expansion of the scope of existing DMIC-Project Implementation Trust Fund (PITF) and re-designated it as National Industrial Corridor Development and Implementation Trust (NICDIT). NICDIT is under the administrative control of DPIIT and NICDC is acting as the knowledge partner to NICDIT in respect of all the Industrial Corridors.

Further, the implementation of any investment node / city will be carried out by the SPV incorporated between NICDIT and the respective State Government/State nominated agency. The equity of NICDIT representing Govt. of India in these SPVs can go maximum upto 50% while the equity of the respective State Govt.(s) will be minimum 50%. The stake of NICDIT may also go up to 100% (including the land cost only in case of strategic projects) in project specific SPVs cutting across the States and sectoral holding companies consisting of project specific SPVs.

The primary sources of funds for NICDC Limited are Project Development Fund (PDF) and Project Implementation Fund (PIF). Project Development Fund (PDF) has been created to meet the expenditure against various project development activities for industrial corridor projects. Project Implementation Fund (PIF) has been created to meet the expenditure against various project implementation activities and is released generally in the form of equity and/or debt to downstream project specific SPVs directly.

The Project development & further activities relating to execution of trunk infrastructure are being taken forward by appointment of world class consultants Programme Manager for New Cities (PMNC) who supervise the activities of various consultants and down the stream EPC contractor(s) under the directions of NICDC / SPV.

Section 5. Terms of Reference

5.1 Background

Delhi Mumbai Industrial Corridor (DMIC) project (Western Dedicated Freight Corridor as backbone being developed by DFCCIL) is aimed at development of futuristic industrial cities in India which can compete with the best manufacturing and investment destinations in the world and converging next generation technologies across different sectors thereby creating employment opportunities and economic growth leading to overall socio-economic development.

An institutional framework with a dedicated Special Purpose Vehicle (SPV) viz. National Industrial Corridor Development Corporation Ltd. (NICDC) was set up for project development, coordination and implementation of the project. In view of the success and importance of DMIC project, Government of India has announced following other industrial corridors as well:

- Chennai-Bengaluru Industrial Corridor (CBIC) with extension to Kochi via Coimbatore;
- Amritsar – Kolkata Industrial Corridor (AKIC) (Eastern Dedicated Freight Corridor as backbone being developed by DFCCIL);
- Bengaluru – Mumbai Industrial Corridor (BMIC); and
- East Coast Economic Corridor (ECEC) with Vizag – Chennai Industrial Corridor (VCIC) as the initial phase of development.

Nodes under implementation in each corridor are as follows:

1. Delhi Mumbai Industrial Corridor (DMIC):
   b. Pithampur Dhar Mhow Investment Region in Madhya Pradesh.
   c. Ahmedabad Dholera Investment Region in Gujarat.
   d. Shendra Bidkin Industrial Area in Maharashtra.

2. Amritsar – Kolkata Industrial Corridor (AKIC):
   a. West Bengal (Raghunathpur)

3. Chennai-Bengaluru Industrial Corridor (CBIC) with extension to Kochi via Coimbatore:
   a. Krishnapatnam in Andhra Pradesh
   b. Tumakuru in Karnataka
   c. Ponneri in Tamil Nadu

*Note: Apart from the above nodes under implementation, the other identified nodes as per the perspective plans of all the corridor mentioned in Clause 5.1 above to be evaluated for potential development based on the progress made.*

5.1.1 DMIC Project:

Delhi Mumbai Industrial Corridor (DMIC) project is a flagship programme of Government of India with the aim to create futuristic industrial cities by leveraging the high speed, high capacity connectivity backbone provided by the Western Dedicated Freight Corridor (DFC) to reduce logistic costs in an enabling policy framework.
These cities which will come up in the States of Uttar Pradesh, Haryana, Rajasthan, Madhya Pradesh, Gujarat and Maharashtra, seek to create a strong economic base with a globally competitive environment and state-of-the-art infrastructure to activate local commerce, enhance investments and attain sustainable development.

The master planning of these cities is founded on key sustainability concepts and use of cutting-edge technology to compete with the best manufacturing and investment destinations in the world.

The master planning has been done keeping in view the green and sustainable aspects of the city such as recycle and reuse of water and solid wastes, Conservation of better agricultural land, protection of sensitive natural environment, Energy sufficiency through use of renewables, transport-oriented development etc.

In addition to the physical master planning, detailed digital master planning has been undertaken to dovetail the physical master plan with the ICT master plans. The whole objective is to monitor and control the entire city from one command and control centre.

5.2 Current Status

5.2.1 As part of DMIC project, construction activities are underway at following locations:

1. Ahmedabad Dholera Special Investment Region in Gujarat (22.5 sq. kms);
2. Shendra Bidkin Industrial Area in Maharashtra (18.55 sq. kms);
3. Integrated Industrial Township Project at Greater Noida, Uttar Pradesh (747.5 acres);
4. Integrated Industrial Township Project ‘Vikram Udyogpuri’ near Ujjain in Madhya Pradesh (1100 acres).

The projects in other DMIC States i.e. Haryana and Rajasthan are at various stages of development and are being taken forwards towards implementation.

5.2.2 DPRs preparation under progress at following stand-alone DMIC Projects:

1. Integrated Multi-modal Logistics Hub at Nangal Chaudhary in Haryana;
2. Multi Modal Logistics Hub and Multi Modal Transport Hub at Greater Noida in Uttar Pradesh;
3. Integrated Multi-modal Logistics Hub at Sanand in Gujarat.

5.2.3 Project development activities for other industrial corridor projects i.e. AKIC and CBIC are underway and detailed master planning and preliminary engineering for following identified nodes are underway where land is being made available by the respective State Govt.(s):

1. Krishnapatnam Industrial Area as part of CBIC in Andhra Pradesh;
2. Tumakuru Industrial Area as part of CBIC in Karnataka;
3. Raghunathpur Industrial Area as part of AKIC in West Bengal.

5.2.4 As part of the development in these nodes / industrial cities, the following trunk infrastructure is developed based on the requirement calculated as part of master planning:

1. Roads and Services with all utilities underground;
   a. Water Supply Network including reuse
   b. Waste water
   c. Storm water
   d. Power / ICT ducts
   e. Street utilities
2. Main Administrative Building with Integrated Command and Control Centre;
3. Water Treatment Plants/ Sewage Treatment Plants/ Central Effluent Treatment Plants;
4. Solid Waste Management System;
5. Electric Substations;
6. ICT Network.

5.3 Framework for Implementation

5.3.1 For coordinated and unified development of all these and other industrial corridor projects to be developed in future, Govt. of India on 7th December, 2016 approved the expansion of the scope of existing DMIC-Project Implementation Trust Fund (PITF) and re-designated it as National Industrial Corridor Development and Implementation Trust (NICDIT). NICDIT is under the administrative control of DPIIT and NICDC is acting as the knowledge partner to NICDIT in respect of all the Industrial Corridors.

5.3.2 Further, the implementation of any investment node / city will be carried out by the SPV incorporated between NICDIT and the respective State Government/ State nominated agency. The equity of NICDIT representing Govt. of India in these SPVs can go maximum upto 50% while the equity of the respective State Govt. (s) will be minimum 50%. The stake of NICDIT may also go up to 100% (including the land cost only in case of strategic projects) in project specific SPVs cutting across the States and sectoral holding companies consisting of project specific SPVs.

5.3.3 The primary sources of funds for NICDC Limited are Project Development Fund (PDF) and Project Implementation Fund (PIF). Project Development Fund (PDF) has been created to meet the expenditure against various project development activities for industrial corridor projects. Project Implementation Fund (PIF) has been created to meet the expenditure against various project implementation activities and is released generally in the form of equity and/or debt to downstream project specific SPVs directly.

5.3.4 The Project development & further activities relating to execution of trunk infrastructure are being taken forward by appointment of world class consultants Programme Manager for New Cities (PMNC) who supervise the activities of various consultants and down the stream EPC contractor(s) under the directions of NICDC / SPV.

5.4 Objectives of the Evaluation Study and Terms of Reference:

5.4.1 Industrial Corridors Sector in India Analysis:
   i. To understand the status of the industrial corridor programme performance in the country on key outcomes.
   ii. To qualitatively and quantitatively evaluate the actual contribution against the intended contributions and assess the impact they have had.

India is one of the fastest developing economies in the world today. Government of India has plans to increase the GDP growth to over 10% in the next couple of years. Accordingly, a large number of infrastructure projects in port, railways and highways have been planned to improve connectivity and reduce logistics cost. A large number of modern smart industrial cities will be set up for sustaining this growth momentum.

One of the objectives of developing industrial corridors in India is to create a strong economic base with a globally competitive environment and state-of-the-art infrastructure to activate local commerce, enhance foreign investments and attain sustainable development. In addition to the influence region, the corridor would also include development of requisite feeder rail/road connectivity to hinterland/markets and select ports along the coast.

Efforts are being made to develop self-sufficient clusters of manufacturing competence, with Cluster Administrative Authorities empowered to provide single window clearances to entrepreneurs and investors. Industrial corridors are being developed to address the lack of infrastructure and logistics. Logistics will be supplemented with warehousing and other elements of the manufacturing supply chain.
